Chartered Accountant · CFA Level I · 2027 summer internship in Private Equity, Investment Banking or Venture Capital · Milan, London, Paris, Singapore

EDUCATION

Bocconi University × ESSEC Business School

Sep 2026 – Jun 2028

Dual Degree: MSc International Management (Bocconi) • Master in Management – Grande École (ESSEC)

- Selected as **one of 25 Bocconi students** for the ESSEC Double Degree Program. Milan, then ESSEC Asia-Pacific Singapore (Jan – May 2027), then ESSEC Cergy.
- Coursework: **Advanced Corporate Finance (valuation, cost of capital)**, Business Analytics (Python/R, regression, decision trees), Corporate Strategy.

Institute of Chartered Accountants of India | Chartered Accountant, First Attempt

2020 – 2024

R.A. Podar College, Mumbai – Bachelor of Commerce

CGPA: 10/10 • 2020 – 2023

INDEPENDENT RESEARCH & PROJECTS

Every piece published in full, with the model, the assumptions, and a post-publication review of what the call got wrong

Recordati S.p.A. | Independent LBO Underwrite of CVC's €10.7bn Take-Private ([Model & IC Summary](#))

2026

- Built the full LBO from public filings alone: **three-tranche debt at 5.5x entry leverage** with a cash sweep, modelling debt-service capacity and exit returns across the hold period.
- Benchmarked against the precedent transaction: the sponsor entered at the **same 12.9x EBITDA eight years earlier**. Concluded participate-selectively at ~15% IRR against a 20% hurdle, revising the underwrite twice as the downside cases held.

Technogym S.p.A. | Equity Initiation & Valuation ([Model & IC Summary](#))

2026

- Published **HOLD at €15.72 against a Street consensus of €19.3–20.6**, after breaking the digital business out of the blended group margin and finding ~€3.3/share the market was overlooking.
- Held the rating anyway, because that value only appears if management runs an undisclosed subscription ramp. Set a €8.82 bear case with the disclosures that would change the call.

AI Semiconductor Supply Chain | Independent Sector Study ([Sector Map](#))

2026

- Mapped the value chain end to end (**\$400B+ annual spend**) and argued the profit pool follows a **moving bottleneck**, from GPUs to memory and packaging and now to power and lithography capacity.

How Close Is AGI? | Independent Research Note ([Full Note](#))

2026

- Argued the question is unanswerable because of **definitional disagreement rather than missing evidence**; proposed autonomy over raw competency as the bar, with five falsifiable predictions and a dated forecast.

Market Signals | UK Rates: Reading the Gilt Curve ([Full Report](#))

2026

- Decomposed the curve using **SONIA OIS rather than gilt yields** to strip ~72bp of term premium and fiscal supply out of the 20-year point, publishing the falsifiers before the call.

Dust | Series B Follow-On Review ([Investment Memo](#))

2026

- Wrote a **22-page investment committee memo** with a defined entry price (\$350–500M post-money), position sizing and explicit re-rating triggers.

VC Playbook | Open-Source Valuation Platform ([GitHub](#))

2026

- Built and open-sourced a Python platform triangulating private-company valuation three ways, benchmarked to the **Bending Spoons listing within 4% of its \$18.4bn value**.

WORK EXPERIENCE

Price Waterhouse Chartered Accountants LLP, Mumbai

Apr 2022 – May 2026

Management Consultant | Finance Transformation (full-time, May 2025 – May 2026)

- Released **₹20 Cr (~€2.2M) of working capital** at an electronics retailer by diagnosing the DSO drivers and restructuring supplier payment terms.
- Cut a monthly close from **7 days to 1** by mapping when each task actually ran and resequencing the cycle rather than adding headcount.
- Standardized **10+ finance processes across a Global Capability Center**, and designed an LLM-assisted variance-analysis workflow saving 50+ hours per reporting cycle.

Articled Assistant | Assurance (CA articleship, Apr 2022 – Apr 2025)

- Independently revalued **25 OTC derivative contracts (₹1000 Cr portfolio)** on a cross-border engagement between PwC's Geneva and Mumbai offices, resolving every valuation difference with the client's treasury desk to a clean sign-off.
- Owned key balance-sheet areas on end-to-end audits of a **\$900M private retailer and a \$1B listed logistics client**, applying Ind AS 115, 116 and 109.
- Cut **year-end sign-off timelines by 4 days**, earning PwC's "Above & Beyond" recognition (top 5% of associates).

LEADERSHIP & ACTIVITIES

Liaison Officer, R.A. Podar College Placement Cell

2020 – 2023

- Built recruitment relationships with **20+ companies** across 2 cycles a year, achieving a **72% placement rate (130/180 students placed)**.

Volunteer, PwC Foundation, Mumbai

2022 – 2026

- Mentored **45+ early-career women**, and led quarterly educational workshops for underprivileged children.

SKILLS

Finance: LBO & M&A Modelling • DCF Valuation • Returns Analysis (IRR/MOIC) • Financial Statement Analysis • Debt Structuring • Fixed Income

Technical: Python • SQL • R • Power BI • Advanced Excel (VBA, Power Query) • PowerPoint

Languages: English (fluent) • Hindi (native) • Marathi (native) • Italian (A1) • German (A2, Goethe)

Interests: Weekly markets newsletter ([Substack](#), 2026 – present) • Distance running • Badminton • Reading fiction
